GOOD ROADS IN WEST VIRGINIA.

The Ohio State Convention on Good Roads held its annual meeting at Columbus last week, nearly every county in the State being represented. West Virginia should follow the example of Ohio and other progressive states of the union, and each county should have a representative at all meetings held in the interests of good public highways. The work of the Good Roads Convention is shown in a recent bill introduced in the Ohio State Senate which gives to the State Board of Public Works the power of approving plans for highways. The cost of building these roads is to be paid as follows: 40 per cent by the state, 40 per cent by the county, and 20 per cent by township; the state appropriate not less than \$250,000 annually for road improvements. This plan of providing revenue for road-building, and dividing it between the state, the county and the township, is suggested by the plan now in use in the state of New York.

Gov. Bacher, of New Hampshire, looking out for the development and prosperity of his state, is advocating a like plan for New Hampshire. He says New Hampshire has mountains, sunshine and air, and "we want to improve the highways so as to make a good impression on visitors when they arrive on foot, on horseback, by bicycle, carriage or automobile." He has appointed an engineer who is at work mapping the roads of the state, and under the Governor's direction a comprehensive system of permanent improvement is being outlined to exactness, before a dollar is expended, on highways that will cost from \$800 to \$1,500 per mile. He recommends that the state appropriate \$100,000 per year for six years. At the end of that time the state would have 600 miles of the best roads in the world, and the governor thinks that these roads would bring 1,000,000 visitors to his state during the year, and that would leave \$10 apiece in the state, or \$10,000,000 during the summer months. What is true of New Hampshire is in a sense true of West Virginia. The question of well-built, well-maintained public highways is an all-important one and means much to the prosperity of any state. It is a subject that should have the consideration of all the loyal citizens of this State.

World Power Responsibilities. There are four transports in the harbor at San Francisco held in readiness to carry American soldiers to the seat of war in the east. They were held there for that purpose before war was begun and before Mr. Hay engaged publicly in the "preservation" of China policy. And now it is "pointed out" that if force is necessary to make this policy effective the United States "will be obliged to take the lead" in applying it. Hay's note to the powers is so interpreted in diplomatic circles. Well, as Mr. Lincoln—whose birthday anniversary this is—used to say, if the people like that sort of thing, why that is the sort of thing they like. But to the average man it does seem that for beginners we are playing a pretty rapid game in this world power business. We have, of course always been a world power, but not exactly of the kind that we have now been born to or achieved—or have had thrust upon us by the Hon. John Hay, of Washington.

Some people in the Ohio Valley have formed a Stamina Republic League. Excellent idea. Now let us have Strenuous Leagues; Speak low and Big Stick Leagues; Put 'Em Through Leagues; Grab and Hold Fast Leagues; Instantaneous Republic Leagues, &c. This is a taking idea.

Senator Beveridge's View. Senator Beveridge thinks that the result of the war now going on depends upon the depth of the money chests of the contending parties. Considering the fact that Japan and Russia—owing to their respective situations—are more on an equality than is generally supposed, the question of resources is vital. Japan is practically at home and has the superior navy on the ground—perhaps water is better she has a population of 50,000,000; she has the fighting spirit and inordinate military ambition; she is compact in territory and population, Russia on the contrary will have to carry the war on under extraordinary circumstances. St. Petersburg is more than 3,000 miles from the scene of action; her troops have to be transported clear across Siberia over a single line of railroad which is operated under difficulties, she has the inferior navy at the scene of action; she has a widely scattered though much larger population. But taking the two powers as they stand with respect to the present struggle, the advantage of position is with the Japanese. So Senator Beveridge is not so far out of the way when he says that the outcome may be considered one of purses.

Congratulations. Mr. John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the family since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy. For sale by Hooff.

The Republican party, which has several times promised a revision of the tariff schedules, does not mean to undertake that job during the present session of Congress. Senator Spooner has so declared bluntly in a speech in the Senate. When Mr. Gorman asked why, the answer was that it was because a presidential election is a disturber of business. We do not precisely see the connection, unless it be between the Republican campaign fund and inaction in tariff reforms. The Buffalo Times has the right idea when it says:

The people are convinced that the only way to secure proper tariff reform is to place the matter in the hands of the Democratic party, which will fix the roof when the sun shines, thus affording shelter from the storms of Republican monopoly, extravagance and misrule.

Senator Gorman thinks the government should expend more money for internal improvement, such as building roads and improving rivers, and less in large navies and standing armies. If this government should go along and attend to its own business, it is not likely to need such a large and expensive army and navy. But the people do need internal improvements. If Senator Gorman should make internal improvement one of his chief issues, he would sweep the country for President. Good roads, bridges and navigable rivers are good for everybody. After a large army and navy are provided, then the government begins to hunt up some country to use them on. Give the people more home improvements and less war talk. —Wayne News.

Pray More, Quarrel Less. Attorney Rhodes of Clarksburg presented Judge Mason of Morgantown with a petition praying that Rev. Watson be prevented from preaching in a Clarksburg church from which he had been discharged for quarreling with a leech. Judge Mason refused to grant the petition, and told the attorney to tell the deacon and Rev. Watson to pray more and quarrel less.

HE KNOWS HIS RIGHTS. Why Shouldn't a Husband Sue His Wife for Support, if Necessary?

It is a poor rule that does not work both ways, and although husbands seldom bring suit for support against their wives, there is no good reason in morals why they should not do so, under certain circumstances.

Take the case of Henry Elliott of Los Angeles, Cal, as an example. He complains in a local court that his wife, Elizabeth, to whom he was married in Birmingham, England, in 1866, and with whom he lived in this country for many years, has deserted him. He is now, at 72 years of age, an inmate of a poorhouse, while Mrs. Elliott owns an 80 acre farm in Colorado which brings her a rental of \$250 a year, real estate in the city and county of Los Angeles, a well stocked store, a real estate business and a considerable bank account.

Now, when a woman takes a man for her wedded husband, to love, honor and obey him, the general presumption is, of course, that he shall support her. But suppose he is unable to do so. Suppose he is not so keen at a trade as she is. Suppose she succeeds in getting all he has and in keeping all she had herself. Suppose she enters into business on her own account and refuses to give him tobacco money, shaving money or food or clothes or anything, doesn't it stand to reason that he should have legal redress?

Why should the spirit of mortal pride? Why should a man hesitate to put in a claim for a share of anything his wife has, just because he is afraid the world may sneer at him? Especially if he is 72 years of age and living on public charity. And more especially if his wife not only possesses plenty, but is in the real estate business in Colorado and doing a thriving business in corner lots.

No doubt a great many wives do support their husbands, and no doubt some of them support their husbands willingly and perhaps cheerfully, but the disposition of wives in most cases is to make life so unpleasant for husbands who have ceased to be producers that most of them prefer the poor farms.

Feed The Brute Well. "To make the home happy, feed the brute good, well-cooked food," says a Chicago woman. This is the very latest utterance from the lips of an oracle of that delightful school of Twentieth century, progressive femininity called the "new woman." We applaud the sentiment, for indeed, we regard it as evidence of the fact that the new woman has come to look upon man as necessary evil, and of the further fact that he is entitled to be well-fed.

The lady who uttered this wisdom is evidently a dame of keen penetration and wide experience. She has struck the key note of what it takes to make up a contented household—a well fed husband. A man with a stomach full of digestible food is always in a complacent frame of mind. He does not feel disputations, and his digestion is too busy to leave his brain sufficiently supplied with blood to sustain him in any garulous exercises. He is obeying his out, so to speak, in the placid shade of well-fed contentment, and he has neither the inclination nor the energy to chew the rag. At such time and under such conditions, man is incapable of any overt operations offensive or defensive. He will agree to woman's rights as a principle, and his wife's rights especially, and stand for an Easter bonnet, a diamond, or a handsome gown with angelic equanimity. No matter what the subject or the provocation, no man can quarrel with his wife on a full stomach.

A Scientific Discovery. Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by Hooff.

TWO VIEWS OF WHISKEY. In making a gift to a friend Robert G. Ingersoll penned the following eulogy on whiskey:

"I send you some of the most wonderful whiskey that ever drove the skeleton from the feast or painted landscapes in the minds of men. It is the mingled souls of wheat and corn. In it you will find the sunshine and shadow that chased each other over the billowy fields, the breath of June, the carol of the lark, the dew of night, the wealth of summer, and autumn's rich content, all golden with the imprisoned light. Drink it, and you will hear the voice of men and maidens singing the 'Harvest Home,' mingled with the laughter of children. Drink it, and you will feel within your blood the starlit dawns, the dreamy, tawny dunks of perfect days. For forty years this liquid joy has been within the staves of oak, longing to touch the lips of man."

This was Dr. Buckley's statement of the other side:

"I send you some of the most wonderful whiskey that ever brought a skeleton into the closet, or painted scenes of lust and bloodshed in the brain of man. It is the ghosts of wheat and corn, crazed by the loss of their natural bodies. In it you will find a transient sunshine chased by a shadow as cold as an Arctic midnight, in which the breath of June grows icy and the carol of the lark gives place to the foreboding cry of the raven. Drink it, and you shall have 'woe,' 'sorrow,' 'babbling,' and 'wounds without cause.' Your eyes shall behold strange women, and 'your heart shall utter perverse things.' Drink it deep, and you shall hear the voice of demons shrieking, women wailing, and worse than orphan children mourning the loss of a father who yet lives. Drink it deep and long, and serpents will hiss in your ears, coil themselves about your neck, and seize you with their fangs; for at the last it biteth like a serpent and stingeth like an adder. For forty years this liquid death has been within the staves of oak, harmless there as purest water. I send it to you that you may put an enemy in your mouth to steal away your brains, and yet I call myself your friend."

A Prisoner in Her Own House. Mrs. W. H. Lays, of 1001 Agnes Ave., Kansas City, Mo., has for several years been troubled with nasal hoarseness and at times a hard cough which she says, "I would keep me in by physicians with no noticeable results. A friend gave me part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, I have felt better in saying, I realize that I am entirely cured." This remedy is for sale by Hooff.

Why He Wasn't Promoted. He watched the clock. He was always grumbling. He was always behindhand. He asked too many questions. His stock excuse was "I forgot." He wasn't ready for the next step.

He did not put his heart in his work. He learned nothing from his blunders. He chose his friends among his inferiors. He was content to be a second rate man. He never dared to act on his own judgment. He did not think it worth while to learn how. He thought it was clever to use coarse and profane language. He imitated the habits of men who could stand more than he could. He did not learn that the best part of his salary was not in his pay envelope—Success.

ONE LUNG May be gone and yet the remaining lung will be amply sufficient to sustain a vigorous vitality. As a general thing few people make more use of both lungs than is equivalent to a healthy use of one lung. These facts are all in the favor of the man or woman with weak lungs, even when disease has a strong grip on them.

Many a person living in health to-day has the lungs marked by the healed scars of disease. Dr. Pierce's Golden Medical Discovery makes weak lungs strong. It cures chronic, deep-seated coughs, bronchitis, bleeding lungs and other conditions, which, if neglected or unskillfully treated, find a fatal termination in consumption.

"I had been troubled with lung disease for a number of years and the trouble had almost become chronic. I had almost become a 'wreck' and was unable to do any work. I sincerely recommend Dr. Pierce's Golden Medical Discovery to all who are afflicted as I was."

Farms Big in Dakota. "Yes, sir," resumed the Dakota farmer, as the crowd of agriculturists seated themselves round a little table, "yes, sir, we do things on rather a sizable scale. I've seen a man on one of our big farms start out in the spring and plow a great furrow until autumn. Then he turned round and harvested back. We have some big farms up there, gentlemen. A friend of mine owned one which he had to give a mortgage on, and pledge you my word the mortgage was due at one end before they could get it recorded at the other. You see, it was laid out in counties. And the worst of it is, it breaks up families. So two years ago I saw a whole family prostrated with grief—women yelling, children howling and dogs barking. One of men had his camp truck packed on seven four-muled teams, and he was going round bidding everybody good-bye."

"Where was he going?" "He was going half-way across the farm to feed the pigs," replied the Dakota man.

"Did he ever get back to his family?" "It isn't time for him yet. Up there we send young married couples out to milk the cows, and their children bring home the milk."
